The Springer publisher will typeset all the accepted papers from scratch so authors can focus mainly on technical contents.

Helpful Hints when preparing your article for submission:

1. Author(s) must remove their name(s) and other self-identifying information in the paper for blind review purpose.
2. Follow a two-column 8.5x11 page format similar to the IEEE standard format.
3. Use Times New Roman font size 12 for the entire text. For special characters, please use Symbol and/or Arial Unicode.
4. For all authors, please supply all the email addresses.
5. Abstract should be between 150 to 250 words.
6. Use the decimal system of numbering if your headings are numbered.
7. Technical terms and abbreviations should be defined the first time they appear in the text.
8. In Word, use the Match function of Word 2007 or 2010 or Microsoft Equation Editor.
9. Give each Figure and Table a caption.
10. Include the Figure captions at the end of the paper file, not in the Figure file.
11. Cite reference numbers in square brackets either sequential by citation or according to the sequence in an alphabetized list.
12. The page limit for each paper is 6. Additional pages will incur $125/page extra page fee.
13. **The get a feel for what a paper should look like, please see the <u>Sample Paper file</u>.**
