Professor Adrian A. Hopgood, PhD

Adrian Hopgood is Professor of Intelligent Systems at the University of Portsmouth in the UK, where he is Director of the Future & Emerging Technologies theme and of the South Coast Centre of Excellence in Satellite Applications. He is a Chartered Engineer, Fellow of the BCS (the Chartered Institute for IT), and a committee member for the BCS Specialist Group on Artificial Intelligence. Professor Hopgood has worked at the level of Executive Dean and Pro Vice-Chancellor in the UK and Belgium, and he has enjoyed scientific roles with Systems Designers PLC and the Telstra Research Laboratories in Australia. His main research interests are in artificial intelligence and its practical applications. He has supervised 19 PhD projects to completion and published more than 100 research articles. His textbook "Intelligent Systems for Engineers and Scientists" is ranked as a bestseller and its fourth edition is due in 2021.
